

Silent Line Up

Equipment Required: None

Space Required: Small to medium

Group Size: Any

Skills: Communication, Teamwork, Leadership

Brief Overview: Students must line up according to birth month, birth date, how many siblings, the last digit of their phone numbers, etc. without using words.

Directions: Without using words, have team members communicate and line up according to birth month, birth date, how many siblings, the last digit of their phone numbers, etc. Once they are finished forming the line the coach should go down the line and confirm the outcome.

Discussion points:

- 1) Did someone take the lead? If so, how important was having a leader to get the task done?
- 2) Was it hard to understand anyone?
- 3) Are you surprised by the outcome?
- 4) How important is communication?
- 5) What do you feel you took away from this task?

Hints for Coaches: If groups are too large, form smaller groups. To make it more difficult, set a time limit.
